

PREPARING YOUR BUSINESS FOR THE POST-BREXIT ENVIRONMENT

After four long years of negotiations, the UK has officially left the EU.

A trade agreement is now in place and there are significant changes to how businesses import and export with the UK.

TRANSITION PERIOD

This transition phase ended on 01 January 2021. Up until the 31 December 2020, EU and UK companies continued to trade as normal. There were no sanitary/phytosanitary checks between the EU and the UK and citizens of both jurisdictions could still travel freely.

As of the 01 January 2021, the UK no longer apply the rules of the European Union, the Single Market or the Customs Union.

For Irish traders, tariffs now apply on exports to the UK and imports from the UK. In addition, customs declarations are required for imports and exports.

PUTTING TOGETHER A CUSTOMS PROCEDURE GOING FORWARD

As you may now be importing/exporting for the first time it is essential to draft a Customs Procedure to ensure the correct processes are put in place for Importing and Exporting your goods.
